Notes to the Financial Statements	

#### **Report of Independent Auditor**

To the General Council on Finance and Administration The United Methodist Church – Plan Sponsor and

To the Committee on Audit and Review
The General Council on Finance and Administration
The United Methodist Church

#### **Opinion**

We have audited the accompanying financial statements of the General Agencies of The United Methodist Church Benefit Plan (the "Plan"), which comprise the statements of benefit obligations and net assets available for plan benefits as of December 31, 2024 and 2023, and the related statements of changes in benefit obligations and net assets available for plan benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of December 31, 2024 and 2023, and the changes in its financial status for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

cbh.com

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud
  or error, and design and perform audit procedures responsive to those risks. Such procedures include
  examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
  raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of
  time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

#### Note 1—Nature of the Plan

The following description of the General Agencies of The United Methodist Church Benefit Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a complete description of the Plan's provisions.

General – The Plan, a health and welfare benefit plan, was established effective January 1, 1986 for the purpose of maintaining group insurance benefits, including medical, dental, vision, life, and short and long-term disability defined benefits, for active and retired employees of certain General Agencies of The United Methodist Church ("General Agencies") and two other United Methodist related organizations. Effective January 1, 1987, the Plan also began maintaining group insurance benefits for active and retired bishops provided through the Episcopal Fund of The United Methodist Church. The General Council on Finance and Administration of The United Methodist Church ("GCFA") sponsors the Plan. The Plan is exempt from compliance with the participation, vesting, and funding rules of the Employee Retirement Income Security Act of 1974.

Benefits – As of January 1, 2019, General Agency employees working a minimum of 30 hours per week, and their eligible dependents, are eligible to receive health, medical, life, and disability benefits from the Plan upon hire. General Agency employees and their eligible dependents who were hired prior to January 1, 2019 and who were, and continue to, work at least 20 hours per week continue to be eligible to receive health, medical, life, and disability benefits from the Plan. Effective January 1, 2020, eligible employees are also able to make election for legal and identity theft benefits for themselves and their dependents, which includes up to \$1 million identity theft insurance policy. Employees may be eligible to retire with medical and dental benefits for themselves and their dependents. Effective January 1, 2019, new Medicare eligible retirees age 65 and over are eligible for one post-65 medical benefit: the retiree health reimbursement account.

Effective January 1, 1997, GCFA adopted a policy whereby employees are eligible to retire with medical, dental, and life benefits if they meet one of four conditions:

- Retire with a total of 78 "points" (the sum of an employee's age and years of service);
- If hired after January 1, 1997, retire at age 62 or older with seven years of active service;
- If hired prior to January 1, 1997, retire at age 62 or older with five years of active service; or
- Employees who retire at an age less than 62 with 70 to 77 total points are eligible for medical benefits for themselves and their dependents, provided that 100% of the premiums are paid by the retiree until the retiree reaches age 62 or the retiree can provide proof of insurability for the retiree and their eligible dependents at age 62. At age 62, the agency resumes paying premiums on behalf of the retiree.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

#### Note 1—Nature of the Plan (continued)

Contributions – In addition to deductibles and copayments, the costs of the Plan are funded by contributions from employees, retirees, and participating employers as follows:

These percentages differ based on the coverage elections. The deductible amounts for the High Deductible Health Plan ("High HSA") are \$1,600 and \$1,500, respectively during 2024 and 2023. The deductible amounts for the High Deductible PPO Plan ("High PPO") are \$2,000 in both 2024 and 2023. The deductible amounts for the Low Deductible PPO Plan ("Low PPO") are \$500 in both 2024 and 2023.

	Participant Contribution		<b>Employer Contribution</b>	
	2024	2023	2024	2023
Employee Low PPO deductible	23%	23%	77%	77%
Employee High PPO deductible	10%	10%	90%	90%
Employee High HSA deductible	10%	10%	90%	90%
Employee with one dependent Low PPO deductible	27%	28%	73%	72%
Employee with one dependent High PPO deductible	16%	16%	84%	84%
Employee with one dependent High HSA deductible	16%	16%	84%	84%
Employee plus family Low PPO deductible	27%	27%	73%	73%
Employee plus family High PPO deductible	16%	16%	84%	84%
Employee plus family High HSA deductible	16%	16%	84%	84%
Retiree Age 62 - 64 Low PPO deductible	41%	41%	59%	59%
Retiree Age 62 - 64 High PPO deductible	36%	36%	64%	64%
Retiree Age 62 - 64 High HSA deductible	31%	31%	69%	69%

Retirees age 65 and over are eligible for annual reimbursement of healthcare costs up to \$2,250, during 2024 and 2023 for themselves and up to \$2,000 for their spouse, during 2024 and 2023. Any unused annual reimbursement amount is carried over to the subsequent year.

Medical and Dental Insurance Funding – The medical and dental insurance benefits are provided under a self-insured, administrative services only arrangement. The individual stop loss for the years ended December 31, 2024 and 2023 was \$300,000. This arrangement requires that GCFA pay United Healthcare, the Plan administrator, a per-person fee each month to provide the network access and process the claims for participants. The administrative fee is paid via monthly invoice while claims are funded weekly.

Life, Disability and Vision Insurance Funding – GCFA collects amounts from the General Agencies and other participants for the premiums for life, disability and vision insurance. Employees of all General Agencies are grouped together for experience rating purposes and the premiums for these agencies are remitted in full to the insurance company.

The life, disability and vision plans are fully insured on a straight premium basis with any surplus or deficit remaining with the insurance company. Premiums paid for these benefits were \$464,459 and \$466,662 for the years ended December 31, 2024 and 2023, respectively.

Refunds -Refunds due from the Plan's pharmacy benefit manager ("PBM") are recorded when earned. Refunds due as of the financial statement date have been reported as a receivable, with the offset being netted against claims paid. Pharmacy rebates totaling \$142,494 have been netted with claims paid in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024.

DECEMBER 31, 2024 AND 2023

#### Note 1—Nature of the Plan (continued)

Flexible Spending Accounts – The Plan allows employees to participate in two flexible spending account programs. The Health Care Spending account allowed a participant to set aside up to \$3,200 and \$3,050 for the years ended December 31, 2024 and 2023, respectively, on a pretax basis to pay for unreimbursed healthcare expenses. The Dependent Care Spending account allowed a participant to set aside up to \$5,000 for the years ended December 31, 2024 and 2023 on a pretax basis to pay for unreimbursed dependent care expenses. Any amounts remaining in the spending accounts at the end of the year must be forfeited to the Plan.

Claims may be submitted for expenses incurred during the previous year until the following March 31. Forfeitures were \$-0- for each of the years ended December 31, 2024 and 2023, and are used to decrease the GCFA's contribution into the Plan.

Administrative Expenses – The Plan pays administrative expenses that consist primarily of administrative fees paid to third party claims administrators, the Plan sponsor (see Note 6), and actuary. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses.

Plan Termination – Although it has not expressed any intention to do so, the Committee on Personnel, Policies, and Practices (the "Committee"), consisting of representatives from participating General Agencies, has the right to modify the benefits provided to active employees. In addition, the Plan may be terminated by the Committee at any time. Upon termination, the assets then remaining shall be subject to the applicable provisions of the Plan then in effect and shall be used until exhausted to pay benefits to participants in order of entitlement.

#### Note 2—Summary of significant accounting policies

Basis of Accounting – The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Benefits are recorded when paid and an accrual is made at period end for an estimate of claims incurred but not reported.

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, claims incurred but not reported, and postretirement benefit obligations as of the date of the financial statements, and the reported amounts of changes in net assets available for plan benefits and plan benefit obligations during the reporting period. Actual results could differ from those estimates.

*Equipment, Net* – Equipment is recorded at cost, less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of three to six years. Equipment consists primarily of computer equipment and software.

Due (to) from GCFA Cash Balance Pool – The amounts presented as due (to) from GCFA Cash Balance Pool ("CBP") in the accompanying financial statements represent the Plan's portion of the CBP portfolio managed by GCFA on behalf of certain agencies and related organizations of The United Methodist Church. The amount due (to) from this pool effectively represents the amount of cash deposits that are available to the Plan to be disbursed out of GCFA's centralized cash management system. Since these deposits are legally invested in GCFA's name and not in a separate demand account in the Plan's name, they are not classified as cash and cash equivalents but rather are considered an amount due (to) from GCFA. The CBP includes funds invested in demand deposits, corporate bonds, taxable municipal bonds, mutual funds, and notes from other United Methodist related organizations. The Plan did not receive an allocation of interest from GCFA during the years ended December 31, 2024 and 2023.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

#### Note 2—Summary of significant accounting policies (continued)

*Income Recognition* – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded as earned. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Postretirement Benefits – The postretirement benefit obligations represent the actuarial present value of those estimated future benefits that are attributed to employee service rendered through December 31, 2024 and 2023. Postretirement benefits include future benefits expected to be paid to or for (1) current retirees, (2) other participants fully eligible for benefits, and (3) other participants not yet fully eligible for benefits. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date.

The actuarial present value of the expected postretirement benefit obligations is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data in order to estimate future annual incurred claims costs per participant, and the probability of payment (by means of decrements such as those for death, disability, or retirement) between the valuation date and the expected date of payment.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

#### Note 2—Summary of significant accounting policies (continued)

Assumptions used in the postretirement benefit valuation as of December 31, 2024 and 2023 are as follows:

	2024	2023
Discount rate	5.45%	4.77%
Mortality	PRI-2012 Table with improvement scale MP-2020	PRI-2012 Table with IRS 2024 adjusted improvement scale MP-2021
Average retirement age Initial Annual Healthcare Trend rates - Medical premiums:	66	66
Pre-65 Initial Annual Healthcare Trend rates -	7.00%	6.30%
Dental premiums Ultimate Annual Healthcare Trend rates - Medical premiums:	5.00%	4.00%
Pre-65 Ultimate Annual Healthcare Trend rate -	5.00%	3.70%
Dental premiums Year Ultimate Healthcare Trend Rate is Reached:	5.00%	3.73%
Medical Pre-65	2033	2072
Dental	2025	2072
Participation Rates	50% of future retirees are assumed to elect spousal coverage upon retirement. Males are assumed to be 3 years older than their spouse. Actual plan participation is used for retirees and their spouses.	50% of future retirees are assumed to elect spousal coverage upon retirement. Males are assumed to be 3 years older than their spouse. Actual plan participation is used for retirees and their spouses.
	100% of future retirees will be Medicare eligible and elect to participate in the HRA upon retirement and all future retirees elect dental and life insurance.	100% of future retirees will be Medicare eligible and elect to participate in the HRA upon retirement and all future retirees elect dental and life insurance.

The key assumptions described above, including discount rates, expected returns, mortality rates, and healthcare trends, are significant estimates. Changes to these assumption or future results that are different from these estimates could result in material differences in the benefit obligation and the net funded or unfunded status of the Plan.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

#### Note 2—Summary of significant accounting policies (continued)

The forgoing assumptions are based on the assumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

The healthcare cost trend assumption has a significant effect on the amounts reported in the accompanying financial statements. If the assumed trend rates increased by one percentage point each year in the future, the postretirement benefit obligation as of December 31, 2024 and 2023 would increase by approximately \$4,121,000 and \$4,801,000, respectively.

Incurred But Not Reported Health Plan Claims Reserve – Plan obligations for health claims incurred by all participants but not reported as of December 31, 2024 and 2023 are estimated based upon actual claims expense trends. Estimates of \$545,000 and \$627,000 for claims incurred by all participants are included in the current benefit obligation as of December 31, 2024 and 2023, respectively.

Risks and Uncertainties – As of December 31, 2024 and 2023, the Plan utilized an investment instrument including the Socially Principled Fund and Socially Principled Plus Fund, of The United Methodist Church Foundation (see Note 4). Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Fair Value Measurements – The Plan's investments are reported at fair value. U.S. GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value. Assets recorded at fair value in the statements of benefit obligations and net assets available for plan benefits are categorized based on the level of judgment used in the measurement of their fair value. These judgment levels, as defined by Financial Accounting Standards Board Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, are as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

#### Note 2—Summary of significant accounting policies (continued)

The Plan's investments are held by The United Methodist Church Foundation and the Texas Methodist Foundation. Fair value is determined using the fair value of the underlying net assets of the fund divided by the number of shares outstanding, or net asset value ("NAV"), as a practical expedient. In accordance with ASC Subtopic 820-10, certain investments that are measured at fair value using NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. Transactions occur daily with no advance notice requirements. There are no unfunded commitments.

The Plan believes its valuation methods are appropriate and consistent with other market participants; however, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

#### Note 3—Benefit obligations

The Plan's unfunded accumulated postretirement benefit obligation was approximately \$26,250,000 and \$26,626,000 as of December 31, 2024 and 2023, respectively. It is expected that premiums for future years with respect to the Plan's postretirement benefit obligations will be funded by the participating General Agencies.

The increase in the Plan's accumulated postretirement benefit obligation ("APBO") during the year ended December 31, 2024 was primarily a result of increases in service costs, interest costs, claim costs and updates to trend assumptions offset by decreases in discount rate and demographic impact. The increase in the Plan's APBO during the year ended December 31, 2023, was primarily a result of an increase in the demographic impact, service costs and interest costs used in the actuarial valuation.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation process and related assumptions, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

On December 8, 2003, the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (the "Act") for employers that sponsor postretirement health care plans that provide prescription drug benefits was signed into law. The Act introduces a prescription drug benefit under Medicare as well as a federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least actuarially equivalent to Medicare Part D.1. Under the Act, for multiemployer plans, the Medicare subsidy was received directly by the Plan and not individual employers participating in the Plan. The Plan adopted the Medicare Advantage Plan and as a result, the Plan is no longer eligible to receive the federal subsidy.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

#### Note 4—Fair value of investments at UMCF and the Texas Methodist Foundation

In July 2007, the Plan invested \$3,650,000 in the Balanced Fund of The United Methodist Church Foundation ("UMCF"). As of December 31, 2024 and 2023, the Plan's investment in UMCF was \$13,062,823 and \$13,233,315, respectively, and is carried at fair value. Investment income (loss), net of investment fees on these funds totaled \$1,829,511 and \$1,807,939 during the years ended December 31, 2024 and 2023, respectively.

At December 31, 2024 and 2023, the UMCF fund is invested within the Methodist Socially Principled Fund and Methodist Socially Principled Plus Fund. The objective of the Methodist Socially Principled Model is to provide a reasonable level of current income and simultaneously to protect the purchasing power of the principal against inflation, while following the underlying benchmarks investments. There is no guarantee that these objectives will be reached. The targeted allocation of the fund is 35% invested in a fixed income fund, 30% in a domestic large capitalization equity portfolio, 10% in a domestic small/mid-capitalization equity portfolio, and 25% in an international equity portfolio. This model is designed for those investors who are seeking a single asset allocation to provide broad diversification, reasonable income, and protection against inflation. The Foundation reserves the right to change the asset allocation or mix of this model as allowed by its statement of investment policy, objectives, and guidelines at any time without notice to participants. The objective of the Methodist Socially Principled Plus Model is to provide similar investment returns as the Methodist Socially Principled Fund but to reduce the volatility of the returns by increased portfolio diversification through the use of alternative investment strategies, including fund of hedge funds, long short hedge fund managers, credit and equity relative value strategies and managed futures that can utilize currency and commodity forwards and futures. There is no guarantee that these objectives will be reached. The targeted allocation of the fund is 30% invested in a fixed income fund, 25% in a domestic large capitalization equity portfolio, 10% in a domestic small/mid-capitalization equity portfolio, 15% in an international equity portfolio, and 20% in an alternative investment portfolio. This model is designed for those investors who are seeking an option to provide broad diversification, reasonable current income, and protection against inflation. The Foundation reserves the right to change the asset allocation or mix of this model as allowed by its statement of investment policy, objectives, and guidelines at any time without notice to participants.

In April 2006, the Plan invested \$8,965,578 in the Methodist Loan Fund with the Texas Methodist Foundation. The investment matured in June 2012. As of December 31, 2024 and 2023, the Plan's investment at the Texas Methodist Foundation was \$908 and \$895, respectively.

#### Note 5—Federal income tax exemption

The Plan is organized exclusively for charitable, religious, and educational purposes and is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code under the group ruling for United Methodist affiliated organizations.

The Plan accounts for the effect of any uncertain tax positions based on a more likely than not threshold to the recognition of the tax positions being sustained based on the technical merits of the position under examination by the applicable taxing authority. If a tax position or positions are deemed to result in uncertainties of those positions, the unrecognized tax benefit is estimated based on a cumulative probability assessment that aggregates the estimated tax liability for all uncertain tax positions. Tax positions for the Plan include, but are not limited to, the tax-exempt status and determination of whether income is subject to unrelated business income tax; however, the Plan has determined that such tax positions do not result in an uncertainty requiring recognition.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

#### Note 6—Related party transactions

During the years ended December 31, 2024 and 2023, the Plan sponsor provided services on behalf of the Plan for certain accounting and administrative services. Those amounts incurred by the Plan sponsor related to payroll and operating costs were allocated to the Plan in the amount of \$818,713 and \$658,584, respectively, and are included in the Plan sponsor service fees on the accompanying statements of changes in benefit obligations and net assets available for plan benefits. As discussed in Note 2, at December 31, 2024, amounts held by the Plan sponsor in the CBP totaled \$518,250. At December 31, 2023, amounts due to the Plan sponsor totaled \$128,585.

#### Note 7—Subsequent events

Management has evaluated subsequent events through July 28, 2025, the date the financial statements were available for issuance.
