

**Number of Local Churches as Distributed by Size of Membership by Annual Conference**

The following tables show the number of churches in each annual conference with membership in 12 size categories. For example, reading the first line of the data, we find that Dakotas Conference, containing 243 local churches, had 81 local churches with 1-49 members, 57 churches with 50-99 members, etc. At the end of each jurisdiction, the total number of churches in each size category is shown followed by the percentage of churches in each size category. At the end of the tables, totals for the whole church in each size category are shown followed by corresponding percentages. These figures indicate that more than two out of three (72.3%) of United Methodist local churches have fewer than 200 members. This data is for the year ending December 31, 2017. \*At Large\* members are members of new churches held in general conference membership. Churches reporting 0 members are those that closed during the year.

**Number of Local Churches as Distributed by Size of Membership by Annual Conference**

The following tables show the totals for various categories as broken down by church membership size. For example, these figures indicate only 12% of churches with 1 to 50 members (which make up 24.6% of the total churches in the US) had a profession of faith. Only 11,580 total churches (37%) reported new members via profession of faith. Conversely, 97% of the churches with 3,000+ members reported a profession of faith. This data is for the year ending December 31, 2017.

### Number of Local Churches as Distributed by Average Attendance at the Principle Weekly Worship Service and by Annual Conference

The following tables show the number of churches in each annual conference with attendance in 13 size categories. For example, reading the first line of the data, we find that Dakotas Conference, containing 243 local churches, had 3 churches reporting no attendance, 45 local churches with an average attendance of 1-19, 55 churches with an average attendance of 20-34, etc. At the end of each jurisdiction, the total number of churches in each attendance category is shown followed by the percentage of churches in each category. At the end of the tables, totals for the whole church in each attendance category are shown followed by corresponding percentages. These figures indicate that more than four out of five (87.7%) of United Methodist local churches have an average attendance of fewer than 150 persons. This data is for the year ending December 31, 2017. Note that churches reporting 0 attendees could have closed or were part of a church merger during the reporting year.

### Number of Local Churches as Distributed by Average Attendance at the Principle Weekly Worship Service and by Annual Conference

The following tables show the number of churches in each annual conference with attendance in 13 size categories. For example, reading the first line of the data, we find that Dakotas Conference, containing 243 local churches, had 3 churches reporting no attendance, 45 local churches with an average attendance of 1-19, 55 churches with an average attendance of 20-34, etc. At the end of each jurisdiction, the total number of churches in each attendance category is shown followed by the percentage of churches in each category. At the end of the tables, totals for the whole church in each attendance category are shown followed by corresponding percentages. These figures indicate that more than four out of five (87.7%) of United Methodist local churches have an average attendance of fewer than 150 persons. This data is for the year ending December 31, 2017. Note that churches reporting 0 attendees could have closed or were part of a church merger during the reporting year.

### Number of Local Churches as Distributed by Christian Formation Group (including Sunday School and Small Group) Participation and by Annual Conference

The following tables show the number of churches in each annual conference with participation in 14 size categories. For example, reading the first line of the data, we find that Dakotas Conference, with 243 churches, had 54 churches reporting no CF participation, 58 churches with 1-24 participation in CF groups, 37 churches with 25-49 participants etc. At the end of each jurisdiction, the total number of churches in each category is shown followed by the percentage of churches in each category. At the end of the tables, totals for the whole church in each category are shown followed by corresponding percentages. These figures indicate that more than 87.6% of United Methodist local churches report fewer than 150 participants in Christian Formation This data is for the year ending December 31, 2017.

**Number of Local Churches as Distributed by Amount Paid for Pastor's Salary and by Annual Conferences**

The following tables show the number of churches in each annual conference with an amount paid for lead pastor's salary in 13 size categories. For example, reading the first line of the data, we find that Dakotas Conference, containing 243 local churches, had 2 local churches paying their pastors \$1-2,499, 4 churches with \$2,500-4,999, etc. At the end of each jurisdiction, the total number of churches in each category is shown followed by the percentage of churches in each category. At the end of the tables, totals for the whole church in each size category are shown followed by corresponding percentages. This data is for the year ending December 31, 2017. Note that churches reporting \$0 in pastor salary likely closed during the year or were churches designated as Mission, New Church Start, or Satellite campuses and thus were not required to submit expenses or had expenses submitted on their behalf by a parent/sponsor church.

Conference		\$0	\$1 - \$2,499	\$2,500 - \$4,999	\$5,000 - \$7,499	\$7,500 - \$9,999	\$10,000 - \$14,999	\$15,000 - \$19,999	\$20,000 - \$24,999	\$25,000 - \$29,999	\$30,000 - \$39,999	\$40,000 - \$49,999	\$50,000 - \$74,999	\$75,000 +	Total Number of Churches

**Number of Local Churches as Distributed by Amount Paid for Pastor's Salary and by Annual Conferences**

The following tables show the number of churches in each annual conference with an amount paid for lead pastor's salary in 13 size categories. For example, reading the first line of the data, we find that Dakotas Conference, containing 243 local churches, had 2 local churches paying their pastors \$1-2,499, 4 churches with \$2,500-4,999, etc. At the end of each jurisdiction, the total number of churches in each category is shown followed by the percentage of churches in each category. At the end of the tables, totals for the whole church in each size category are shown followed by corresponding percentages. This data is for the year ending December 31, 2017. Note that churches reporting \$0 in pastor salary likely closed during the year or were churches designated as Mission, New Church Start, or Satellite campuses and thus were not required to submit expenses or had expenses submitted on their behalf by a parent/sponsor church.

**Number of Local Churches as Distributed by Amount Paid toward Mission Giving and by Annual Conferences**

The following tables show the number of churches in each annual conference with an amount paid toward Mission Giving in 13 size categories. For example, reading the first line of the data, we find that Dakotas Conference, containing 243 local churches, had 23 local churches giving \$1-2,499, 29 churches giving \$2,500-4,999, etc. At the end of each jurisdiction, the total number of churches in each category is shown followed by the percentage of churches in each category. At the end of the tables, totals for the whole church in each size category are shown followed by corresponding percentages. This data is for the year ending December 31, 2017. Note that churches reporting \$0 in giving likely closed during the year or were churches designated as Mission, New Church Start, or Satellite campuses and thus were not required to submit expenses or had expenses submitted on their behalf by a parent/sponsor church.

Conference		\$0	\$1 - \$2,499	\$2,500 - \$4,999	\$5,000 - \$7,499	\$7,500 - \$9,999	\$10,000 - \$14,999	\$15,000 - \$19,999	\$20,000 - \$24,999	\$25,000 - \$29,999	\$30,000 - \$39,999	\$40,000 - \$49,999	\$50,000 - \$74,999	\$75,000 +	Total Number of Churches

**Number of Local Churches as Distributed by Income Received for Budget/Spending Plan and by Annual Conferences**

The following tables show the number of churches in each annual conference with amount received toward the church's budget/spending plan in 13 size categories. For example, reading the first line of the data, we find that Dakotas Conference, containing 243 local churches, had 0 local churches receiving \$1-2,499, 1 church receiving \$2,500-4,999, etc. At the end of each jurisdiction, the total number of churches in each category is shown followed by the percentage of churches in each category. At the end of the tables, totals for the whole church in each size category are shown followed by corresponding percentages. This data is for the year ending December 31, 2017. Note that churches reporting \$0 in income likely closed during the year or were churches designated as Mission, New Church Start, or Satellite campuses and thus were not required to submit expenses or had expenses submitted on their behalf by a parent/sponsor church.

Conference	\$0	\$1 - \$2,499	\$2,500 - \$4,999	\$5,000 - \$7,499	\$7,500 - \$9,999	\$10,000 - \$14,999	\$15,000 - \$19,999	\$20,000 - \$24,999	\$25,000 - \$29,999	\$30,000 - \$39,999	\$40,000 - \$49,999	\$50,000 - \$74,999	\$75,000 +	Total Number of Churches
